Full-stack js developer

Hi! I am 22 years old, I am an open-minded and responsible person, an avid music lover, and adore technology. In my free time, I do sports, spend time with friends or family, also do self-development, and read books. I want to increase as a developer. I have a little commercial experience in freelancing. Hi, I'm 22 and I'm a music lover. I love to study and develop, so I am engaged in self-development. If you want a creative, intelligent and positive developer to join your team, then I'm here.
